

Symptoms SOLUTIONS

The student's favorite
of the ENTIRE
CAHP program!

Enroll today to learn the
information that **TRULY BRINGS**
A SENSE OF SECURITY.
Be prepared for the health issues
of your family and clients.

Most people start looking into natural health because of a symptom they personally have or someone they love has, and they aren't getting satisfactory results the traditional way.

THIS IS NOT THE:

"Take this for that" approach where you simply
Memorize one product for each symptom.
Have a headache? Take Feverfew.
Have constipation? Take Cascara.
Have Symptom X? Take product Y.

That approach just doesn't work because it completely overlooks the **MOST important question** we should be asking about the symptom.

WHY IS THE SYMPTOM HAPPENING?

Instead of thinking the body is making a mistake or doing something wrong, we drill down to the core cause. Then, instead of stimulating or suppressing a bodily function, we SUPPORT it for permanent results.

The latest online product of the month club for headache may only be addressing ONE of over TEN possible causes. That's a 90% FAILURE rate!

THAT IS UNACCEPTABLE WHEN IT IS YOUR LOVED ONE THAT IS SUFFERING.

This is also NOT the 'one size fits all' method where one product 'fixes' all symptoms:
Headache? Take vitamin C.
Constipated? Take vitamin C.
Symptom X? Take vitamin C.

Who loves this method? The company selling Vitamin C!

The Academy Epic approach is not bound to a single product or any product company. We are focused on finding the best solution that gets to the CAUSE of the issue that's keeping you from making the most of life.

We are also not limited to just one philosophy or technique. This is about solutions to symptoms by getting the best input from:

- Nurse practitioners
- Licensed chiropractors
- Board certified naturopaths
- & Every other angle we could find that really works!

Highlights

- Over 60 individual symptoms in depth and detailed.
- Delivered in multiple learning styles
- All perspectives included
- Simple systematic approach

Many students from other courses say they don't feel prepared to help themselves or others.

If you are going to invest in your health knowledge (and you should), then you want to make sure it's really going to fulfill your goals!!

Titles are nice, and we love the CAHP designation, but the real question is,...

Do you feel confident in your health knowledge right now?
